"Giffen, tell us a story about something that occurred when you lived out in the far west."

"A true story about something that really happened."

"Tell a real true story" shouted several children.

"Very well," I'll tell you what happened in Death Valley and the Green Flame, in the Death Valley region."

"Death Valley? That must have been an awful place."

"That's why they called it Death Valley," I replied.

"You mean it was a very bad place, wouldn't it?"

"Yes, it was a very bad place, and it was a very bad place for a long time."

"Why was it a very bad place?"

"Because it was a very bad place, and it was a very bad place for a long time."

The only way you can be sure of getting the best, is to insist on having

How a Young Man Saved Fortune and Got the Girl.

John Winslow, head of the house of one of the largest and wealthiest engineering firms in America, while sitting at his desk in his study, was looking at a letter which he had just received, and his eyes were fixed on the envelope.

"This is the analysis of the bridge section of a western railroad, and the message was an announcement that his bid had been accepted. He expected through this contract to double his fortune."

"His first thought was to communicate his good news to the person he loved best—the only one he loved in the world. Mr. Winslow was a well-to-do man, a successful engineer, a man of great energy and a man of great ambition."

"Kendall" called Mr. Winslow, and he found the telegram on his desk. A young man named Kendall, who was his employer's assistant, called him to his study and handed him a letter.

Ottawa, March 5.—Yesterday morning Messrs. Lennox, Barber, Crothers, the Conservative members on the special committee appointed to investigate the charges of H. Lumsden, resigned as a protest.

It has been arranged that Messrs. E. M. Macdonald and Sam Barker for the respective sides, should agree on a counsel to represent the committee, but they failed, yesterday Mr. Barker moved that a minority appoint the counsel. It was voted down, 4 to 3.

"Speaking for myself," said Lemox, "I cannot help feeling it would be a waste of time to stay in under the circumstances."

Mr. Macdonald then moved Wallace Nesbitt, K.C., be retained

Mr. MacDonald remarked that the Government's position was a most peculiar situation. The Opposition had moved for a committee to investigate the charges against Mr. Lumsden, neither had they suggested any charges against the Government.

Mr. Clark observed the Government did not think party feeling should enter into the case at all, and a moment later charged the minorities with the same.

Victor Goodfriend, the chairman, said that he did not think a lawyer of Mr. Nease's standing would risk his reputation by being a partisan in the conduct of the case. "We have nothing whatever to say against Mr. Nease. It is a principle we are fighting for," said Mr. Harlan.

The four Liberal members then tried a motion appointing Mr. Nease to a special committee to investigate. There is a rule, that must be of little value by this time, that if a member appointed by the House of Commons to a special committee refuses to appear before it, he can be expelled from the Commons, he cannot be incarcerated in the tower and he cannot be fined.

that when the Canadian surplus against Germany had been wholly removed in the recent adjustment of the German discrimination against Canada has only been removed in part. He asked Mr. Fielding if the German arrangements precluded Canada making any arrangements in line with the United States. Mr. Fielding thought Canada was not bound in anyway. He also said Mr. Owen was wrong in saying Germany had a surplus against Canada. E. N. Lewis (W. Huron) referred to recent delays in the tariff negotiations with the United States.

Richard Blain (Peel) said, in a night in the Commons, it was becoming too easy for speculators to get valuable railway charter for the

They urged that the work go ahead particularly on account of the employment which it would give and also by reason of its benefits to navigation. In the delegation were J. J. Stratton, Daniel McKay, J. M. McKeown, T. Beland and A. Pelletier, Montreal; Daniel Ryan and Timothy Kelly, of Toronto.

The Premier said the Government was fully alive to the importance of this work, as well as the Georgian Bay Canal. He gave no definite assurance.

Quebec, March 6.—The official announcement of the appointment of the members composing the Public Utilities Commission was made yesterday. The members are, Col. Hildard of Montreal, chairman; Sir J. George Garroway, and M. Charles Laferrière, professor in the Polytechnic school, Montreal. The secretary has not been named yet. The commission has been named for a period of ten years.

## Want to Reduce Some of the Salaries.

Following is a copy of the report presented to the Council on Monday night by the special committee appointed to deal with civil and their salaries, which was referred to a special meeting to be held on Monday evening next.

The Hon. William M. Mearns and the Aldermen of the Corporation of the City of Belleville.

Graduated in 1870, the special committee, daily appointed by your honorable body at a regular meeting of the City Council held Feb. 22, 1910, for the purpose of enquiring into the feasibility of making adjustments of salaries on certain officials connected with the city government also for the purpose of reviewing and recommending salaries of city officials by way to report as follows.

In view of the fact that we may be permitted to explain that all that was requested, as expressed in my motion, was a statement showing the names of our city officials, a summary of their respective duties and salaries.

We expected to have this shown on one sheet of folio paper, but, contrary to our expectations, many sheets were devoted necessary for this purpose.

After a careful and full examination of all the information furnished relating to this matter and reasonable request of consideration of same, we respectfully submit the following:

We recommend that the office of Inspector-Beaver, including and including the office of the city engineer, be reduced to the total yearly salary of \$12,000.

We recommend that the office of City Engineer, including and including the office of the city engineer, be reduced to the total yearly salary of \$12,000.

Toronto, March 10.—(Dated) The driver of the Automobile Department was the subject of an impressive warning by the Prime Minister of Great Britain in the Legislature yesterday afternoon.

The Premier, the speaker with some warmth, declared that the question was one that would have to come to the serious attention of the Government of the day as it is a danger to the public and not a mere local question. He did not have a low speed limit, but it was necessary, but he would place the responsibility for accidents on the driver.

What Pears on the Mustangs have done to put up with. Many Liberals attended Lord's town when Lord Hindle spoke in support of G. Williams, the Liberal candidate for the Bedford division. Lord Hindle's statement that the House of Lords had not only done their duty in submitting to the judgment of the country a bill that Mr. Lloyd-George himself admitted contained few proposals.

**AN CHECK MINISTERS**  
Lords Have Plan to Delay Con-  
sideration of Veto.

Question in England, According to  
Tribune Correspondent, is Very  
Doubtful. It is believed that  
the Upper House has a means of  
keeping back reformatory Public  
Bills. Their Own Plan is Made.

London, March 14.—New York Tel-  
graph Cable.—The Lords are pre-  
paring to make a last-ditch effort  
to prevent the Ministers from passing  
the bill. The Ministers are planning  
to apply to six weeks for spending  
power, on the ground that the  
bill will be passed by the time  
the veto is made.

The Ministers by refusing office  
early under new circumstances  
could compel Mr. Balfour to face  
the issue. The Lords are making  
an appeal to the country which  
will be met by the House of  
Commons with the feeling that  
the Ministers are not to be  
defeated on spending money, or else  
to be defeated on the question of  
administration and of leaving Mr.  
Balfour at liberty to exact terms  
on a vote before returning to  
office.

The Lords, however, can interfere  
with the bill by making it impossible  
to bring the consideration of the veto  
before the House of Commons.

**LADON'S LATEST CARD.**  
Philadelphia Unionists to Withdraw  
Bank Accounts.

Philadelphia, Pa., March 14.—In its  
efforts to demonstrate the strength of  
organized labor and to make stronger  
the sympathetic strike, the Central  
Labor Union yesterday directed that  
all millinery, haberdashery, grocery stores  
and other dispensers of the necessities of  
life should remain away from their  
usual locations today and until such  
time as the grievances of the striking  
carmen shall have been adjusted.

It was also resolved that union  
members withdraw all their money  
from the banks. Their representatives,  
however organized or not, are also obli-  
gated to the strikers to do likewise.  
The union mill and bread wagon  
drivers are called upon to quit to-  
day. The grocery clerks, 1,000 of whom  
organized yesterday morning, will quit  
work to-day. Any one working Tues-  
day in any line of employment will be  
considered as a union man, and  
expelled from the union of which they  
are members.

Freeman was brought to hear on the  
hearsay evidence of the strikers. The

# Against the Power Bill.

Hon. H. R. Emmerson Leads Attack on American Company

In Stormy Night Session the Opponents of the Incorporation of the St. Lawrence Power Transmission Co.—Canadian Parliament Is Giving Free What the New York Legislature Demands a Price For.

Ottawa, March 15.—There was a late and a stormy night session of the Canadian Parliament today.

A bill to incorporate the St. Lawrence Power Transmission Co., Hon. H. R. Emmerson joined the ranks of the opponents of the bill, and gave it a name and a danger to Canadian interests.

He understood that the bill was simply preliminary to another bill which would be brought to the attention of the House, and would be the counterpart of a bill passed by the New York State Legislature.

Parliament had already given powers to a company in 1906 to take the St. Lawrence. The present bill would supply the power for transmission, which the company now lacked.

When it was recognized, said Mr. Emmerson, that the State of New York insisted upon the new company, justifying a consideration, he wondered why this Parliament was willing to give this power for nothing.

He said that the bill was a "bill to give the power for nothing," and that the bill was a "bill to give the power for nothing."

He said that the bill was a "bill to give the power for nothing," and that the bill was a "bill to give the power for nothing."

He said that the bill was a "bill to give the power for nothing," and that the bill was a "bill to give the power for nothing."

# Daily Intelligence. THE CALENDAR. MARCH 21 Monday.

The woman that makes a good job of it is better than the one who makes a bad job. -Gladstone.

**THIS DAY IN HISTORY.**  
First day of Spring.

**TIMELY TOPIC.**  
March is certainly on her good behavior.

Double spring race in this morning. A beautiful horse named "The Duke" won in his Sunday triumph. The back-bone of winter has a crack in it. A year ago. So we can be glad we are alive.

A local minister said last night that some one new had there was no hell. If not, he would like to know how some could be punished who kept millions of dollars' worth of food in cold storage for years while poor people were starving.

**BELOW-DOWNED HAT.**  
(Toronto News.)  
A Belleville preacher of the Anglican Church stopped a runaway at the risk of his life. A man who had been in the habit of his low-downed hat deserves to be reprimanded.

A New York woman while riding from her home to her office on a public car, was asked to pay for her seat. She refused to do so, and the car was stopped by the police.

**THE KESTER LITERS.**  
"I will," said the man who stands in front of the post office, "that a New York woman claims that a woman would \$50,000 for an Easter outfit. I suppose she is an exceptional case. Not at all. Every woman needs such a coat. Only they don't all get it."

How would it be to install an artificial leg on Front street so as to be placed on and permanently frozen up? This seems a good job, for the permanent leg is seen every day on the corner of the city.

Excuse me, I am ten minutes committed again. Probably could not find an Easter hat high enough in price to put her poor girl!

Answer to "Hats off" in church would very materially increase the attendance in a few months. Any attempt to make a rule, however, would be another effort to punish the poor.

Parade. But there should be some sympathy for the man. And more, perhaps, who sit behind his hat and see nothing but a wall of faces and the tops of their heads.

Keep your eye open for Black Day. It will be here soon.

It was just had a dollar, now, for every time. The "Palm" was once again.

Not Godwin's marriage summary.

# A Tooth Brush Chance

We have just received a lot of those fine English tooth brushes. They are the non-sceding, money back if you want it sort. The brushes are guaranteed not to rest down, break off or pull out. They are practical tooth brushes, they cleanse and they last, every genuine purchaser will be pleased.

# St. Andrew's New Pastor Preached His Initial Sermon.

AND MADE FINE IMPRESSION ON LAUDING AUDIENCE. YES! TONDAY MORNING—HOPES TO BE ABLE TO HELP THEM AND WANTS THEM TO HELP HIM.

Bar, A. K. Kerr, who was ordained on Friday night, preached his first sermon as pastor of St. Andrew's yesterday morning. The service was a straightforward and eloquent utterance of the power of the word of God in the lives of those who heard him. If there is one characteristic of Rev. Mr. Kerr, another which impresses a listener it is his earnestness. No more theoretical, but a man who is quite convinced that the story he has to tell is of the greatest importance to humanity. He made his first sermon in the 11th and 12th streets of the city of Boston.

"For I long to see you that I may impart unto you some spiritual gift, to the end we may be established together by your mutual faith, both for you and me."

This was the heart's desire of a great preacher, to meet with the Christians of the city. He had attained his desire, but not in the way he expected. As Paul had to lead the Christians in Rome, we should attempt each other, and try to impart to each other the spiritual gift to strengthen their faith. The great work of Paul was to establish men and women in their Christian faith, and to offer the doctrine of the cross to the world.

We need today more than ever men who will maintain the faith that is in the world, and who will stand and hold on to the traditions of the faith. It was this that was doing that would make a failure of it. The true work of the church is to stand for the faith of its members, and to stand for the faith of the world. We need today more than ever men who will maintain the faith that is in the world, and who will stand and hold on to the traditions of the faith.

**OBITUARY.**  
State Senator and agent of death in his body and about this city, and today we have to record news of his death.

**SPORTS AND PASTIMES.**  
The basketball game between the St. Michael's and the St. Andrew's teams was held on Saturday night. The game was a very close one, and the St. Michael's team won by a score of 15 to 12.

In New York Saturday night, Rev. Mr. W. W. Moffatt, Jr., of the New York City, was killed by a car. He was a well-known man, and his death was a great loss to the city.

At Buffalo, Jack Tait, of Toronto, beat the great Yankee runner, Danahy, in a race. Tait was a very fast runner, and his victory was a great one for the city.

It would cost \$2000 to install an artificial leg on Front street, and they can't even get the money.

Cambridge was the annual intercollegiate sports with Oxford on Saturday night. The game was a very close one, and the Cambridge team won by a score of 15 to 12.

The citizens of Colburn will present their intercollegiate O.R.A. hockey team on Saturday night. The game will be a very close one, and the Colburn team is expected to win.

The championship of the Ottawa valley will be decided in Ottawa on Thursday. The game will be a very close one, and the Ottawa team is expected to win.

H. George P. Graham, in discussing the point raised, pointed out to the representatives of the railway companies present that the day would

**He Tells the 'Truth' of Greatness of Empire.**

London, March 24.—"The fact which our countrymen George Washington and Alexander Hamilton, in the conclusion of the late war, was not unlike that which confronts the statement of the British Empire at the present time," was the declaration made in an interesting address delivered before the Boston Canadian Club last night by J. B. Boron, member of the Conservative party of the House of Commons.

"The fact of the British Empire today is one of surprising greatness. You have great problems, but consider for a moment those of the world."

"Double the area of your vast territory, divide it into a hundred parts, great and small, and deliver them among the continents, and throughout the world."

"Consider the thousands of your ships, the population like an area of 500,000,000, and make it dependent on your commerce for its life."

### TIMELY TOPICS.

Tomorrow is Good Friday. Also the day when the home-keeping season officially opens.

Take a look at the world; you may find some Mayflower to-morrow. Anyhow, you'll get some fine fresh air.

They say the lawn-mower men are just itching to get at their favorite amusement.

**ON GOOD FRIDAY.**  
Howay! this morning in the year Jack to the table run.

He was taking the breakfast fast. And all up on Hot X Buns.

Question now is, will the weather be just on Easter Sunday for all the new life to be worn? If not, many ladies, perhaps, will blush sweetly.

### THE ANNUAL PARADE.

We live on Easter to parade and see the happy dance and music. So joyous and full of spirit.

In perfect and not yet past. Every day, we need of travel, arriving with hundreds of immigrants. They thousand are expected to arrive this week. Let us help them all get work.

### A BOOSTER.

"Who don't you get rid of that hen! She never lays."

"Well, she is an incessant cackler, and then keeps the other hens at a high note."

Presumably, the writer is too good for March. Perhaps. But it suits us fine.

An editorial cautioner reiterates its assertion that ladies' hats have been away from church. But then, perhaps, they take the women there. For example, the writer was in a church once long ago, seated behind two ladies—has that's another story to Kipling would say.

Well, here's hoping you tell the folks all will rejoice in the Toronto. And don't lose but the two.

The record of dress has begun to come in early—spring has lately started yet. That Tennessee case seems to open the theory that women are timid creatures. Four of them put into a boat which they did not know how to manage, and three of them were drowned, and three of them were drowned.

A little light exercise tomorrow night.

### A Tooth Brush Chance

We have just received a lot of those fine English tooth brushes. They are the non-shedding, money back if you want it sort.

A calligrapher says the threatened rupture between Canada and the U. S. has given a great impetus to certain branches of British trade. It might be a good thing for the Empire if the threatened rupture were a reality.

A farmer near Ottawa was driving the ice when he broke through and would have been drowned only his big dog jumped in, caught his master by the collar and held him up till assistance came. It was a good thing the dog was so useful.

Don't forget Black Day. It will soon be here.

That something should show with the Frost street roadway being now so dry. On portions of it, the water is so deep that it is in other places water so deep, and the mud was thick. Who will take the first step, and who will pay for it?

**SPORTS AND PASTIMES.**

**SPORTING NOTES.**

It is not on Cambridge, "the first annual boat race," which is the "Crested" was well-known.

Jack Johnson spent five hours in a fall while his boat was being towed by a tugboat. He was not hurt, but his boat was damaged.

Ketchell and Klee were in a rowing bout at Pithers last night.

**CURED AT SEVENTY-FOUR**

Little Dipper gets a Great Bile from Mr. John F. Becker. The weight of years very often brings with it a still heavier burden, that of indigestion or some other "stomach trouble."

"The Little Dipper" came to the rescue—by giving them a share, as did Mr. Becker. Then the latter told us what they did for him:

"New Orleans, Nov. 10, 1908. To the OLEMAN MEDICINE CO., Dear Sir:

I was for a long time troubled with indigestion and my liver was always clogged. The "Little Dipper" relieved me of all these troubles, and they took it that trouble away, and I thought you had done it. I am now, as I feel, in good luck, and enough, so I sent you for more. They are a good help to me."

JOHN F. BECKER. Because my writing with pencil, being as old as I am, I cannot write with a pen. The "Little Dipper" has made my stomach right and my liver healthy. This means that I can enjoy every meal, and get the strength out of my food, as I take the "Little Dipper" afterwards.

A druggist's best customer asked that question regarding a patent medicine. The druggist had sold the medicine for years, but was forced to admit that he knew nothing more about it than what appeared on the label, wrapper and advertising. The claims made for that particular patent medicine were so extravagant that the druggist decided to find a line of remedies he knew something about.

# "A MIRACULOUS REMEDY"

Lady in Hull wasted away until she weighed only 80 pounds

TOOK "FRUIT-A-TIVES" JUST IN TIME

This wonderful Fruit Medicine Completely Cured Her after 12 years suffering.

"For the past twelve years, I had painful attacks of dyspepsia. (Usually in March, April, I suffered such tortures that I was compelled to stay in bed. I could not digest my food and everything I ate caused the most agonizing pain in my stomach. I also had a fearful attack of Constipation and at times I had no movement at all for two weeks. Three doctors attended me for two years and gave me all kinds of medicines but did me no good. At length I came down to only 80 pounds and every day I was going to die. Finally I had the good fortune to buy "Fruit-A-Tives" and as soon as I began to take them, I felt better. I persisted in the treatment till I got great joy and to the astonishment of my friends, I improved. Now I am well, eating my food and this is more than I ever enjoyed, even before my illness. I attribute my cure solely and entirely to "Fruit-A-Tives" and can now praise them too much for they saved my life. To all who suffer from Dyspepsia and Constipation, I recommend "Fruit-A-Tives" as being a miraculous remedy."

MADAME ANDREW STAFFORD.

When you read such a letter, you think that "Fruit-A-Tives" is indeed a wonderful remedy, yet the action of "Fruit-A-Tives" is so simple that a child ten years old can use it. It is made from concentrated and intensified fruit juice, and acts directly on the liver, causing efficient bile to flow, which regulates the bowels and cures Constipation. "Fruit-A-Tives" acts on the stomach, producing an abundance of gastric juice and thus perfecting the food and building up the whole system. "Fruit-A-Tives" also regulates kidneys and skin, thus perfecting the blood and building up the whole system. Without exaggeration, it may be stated that "Fruit-A-Tives" is the greatest remedy in the world for Indigestion, Dyspepsia and Constipation, cure a box, 6 boxes for \$2.00, or trial size, 50c. At all druggists or sent outpocket on receipt of price in advance.

## AETNA EMITTING LAVA

Sicilian Volcano is in Eruption and Many Suffer.

Huge Streams of Molten Rock Are Flowing Down Mountainside to Accompaniment of Smoke and Explosions—Two Villages Narrowly Escape Destruction—Needy People Are Begging For Help.

Catania, Sicily, March 25.—Aetna still is angry. From the top of the old crater volume of white smoke are issuing slowly, while from the new crater that have formed lava is gushing and large incandescent masses are exploding with loud detonations, the emission of black smoke.

From Catania and along the entire railway running along Aetna's throat, the eruption are watching the progress of the eruption.

The streams of lava already have surpassed the volume known to the eruption of 1892, but, changing their course just as they reached Sicily, and Nicolosi, they have invaded the main roads near those two villages, which seemed thereby now to have been saved from destruction. The people are still fearful, but in both villages, aid is being sent to the people to avert a panic, while the more and parish priests are uttering prayers to the deity.

## The Burrell Rock Drill Company And Its Use Of City Water.

ALD. LOTT REPLIES TO AN ARTICLE IN THE INTELLIGENCER AND GIVES HIS REASONS FOR HIS NOTICE OF MOTION.

To the Editor of the Intelligence:—I am glad to see the article in the Intelligence of the 26th inst. in which you state that the City Engineer of the City of Belleville is to be paid for the use of city water for the drilling of the Burrell Rock Drill Co., which is outside the city limits.

To the article it says there is much adverse criticism to my motion. I venture to say that the most is where the criticism comes from.

These are a few facts re The Burrell Rock Drill Co.:—The Burrell Rock Drill Co. was formerly the Mac Machine Co., carrying on a business in the city. It had been exempted from taxation for ten years. When the ten years was up, Mr. Burrell comes to the Council with a proposition not only asking exemption from taxation, but also to be supplied with power during the dry months of the year. The proposition was so absurd that the Council refused to consider it. The company would have left this city. It was then they asked for a license to work there by drilling with several horses up West. Whether they asked for a license or not, the same was asked Belleville I do not know.

As regards to non-residents who are being supplied with water, I submit that this is an entirely new thing. The non-residents had their property outside the city limits and they did not move out there to get rid of the taxes. Take the trade of the non-residents, for instance, if they want a carriage, a drag or a set of harness it is bought in the city, but it is taken the way with the Burrell Rock Drill Co. does not seem to be as anxious to be supplied with power for drilling in Belleville enough for them. It has to be purchased in Toronto or some other place. Where is there any benefit derived here? When the Burrell Rock Drill Co. were ready to build or had decided to build, they are now situated in Belleville. They are now situated in Belleville. They are now situated in Belleville.

There has been a great deal of talk in the past and there is at present about bringing industries here. Well I can say it is if you give a company privileges that leaves the city a bad precedent. It would be better to exempt them and let them locate here and we would receive the usual taxes.

I have also been informed that residents of a certain street in this city just year asked the Council to lay a water main on their street, but it was never done. When there is a fire up that way how many have come back to the fire hall for more hose.

If there is any one who has any idea they are the Chairman of the Waterworks Committee. I would like to see the matter and see the real state and taxpayers are supplied with water and not run out of the city to favor a non-resident concern. I would like to see the matter and see the real state and taxpayers are supplied with water and not run out of the city to favor a non-resident concern.

Thanking you for publishing this letter, I remain, Yours truly,

Wm. Lott, Belleville, March 31, 1910.

## Overcoat and Cap Found in the Water.

MYSTERY OF THE HARBOR FRONT—LOOKED LIKE A CASE OF DROWNING, BUT THERE WAS NO MAN IN THE COAT.

Has there been a drowning accident or suicide? The police department of the local police force is looking for a man in the coat. The coat is a dark one, and the cap is a dark one. The coat is a dark one, and the cap is a dark one. The coat is a dark one, and the cap is a dark one.

The police were notified and Officer White, responded to the call and secured the article of clothing, taking them to the police station. The coat is of black serge, with the only article found was a dirty pocket handkerchief. There are no marks whatever of identification upon the two articles found in the water.
